

Will This Be The End

Self Deception

Do we fight again? will this be the end?
There is something wrong and it's about to take over

Hold me and I'll hold you too
Bite off all that you can chew
Take the air straight out of me, sorry won't cut it now you see

I thought you said it felt good?
Did our demons come back too soon?
Are we gonna buckle and brake? Are we just ment to dissipate?

Do we fight again? will this be the end?
There is something wrong and it's about to take over
And if it all ends here, how would that make you feel?
Do we fight again when it's about to take over?

Hurt me and I'll hurt you too
Things aren't like they used to
It seems like the harder we try, problems just seem to multiply

My weakness is my strong suit
Drown out the fighting with booz
Are we gonna buckle and brake, are we just ment to dissipate?

Do we fight again? Will this be the end?
There is something wrong and it's about to take over
And if it all ends here, how would that make you feel?
Do we fight again when it's about to take over?

And if it all ends here, how would that make you feel?

Do we fight again? will this be the end?
There is something wrong and it's about to take over
Do we fight again? will this be the end?
There is something wrong and it's about to take over
And if it all ends here, how would that make you feel?
Do we fight again when it's about to take over?
