Self Esteem

And you can let go, it won't be forever
Come sit above me, let's find out who is heavier
There's not much to it if you open your eyes
You experiment in your own time
And you don't have to find it so confusing
You're living, breathing and it's time you used it
But I'm usually not this kind
So experiment in your own time

You worked it perfectly
I've been in your dream and now I'm here in front of you
Been thinking 'bout you constantly
But I'm not a holiday
It's up to you to make the move

But I've been needing
Somebody to love me, somebody to love me
Somebody to love me
But I've been needing
Somebody to love me, somebody to love me
Somebody to love me

And you don't have to worry 'bout my moving
I've got nothing left that I need proving
Remember you don't owe them anything
(You don't owe them anything)
It's time to let your body ride with it

You worked it perfectly
I've been in your dream and now I'm here in front of you (Here in front of you)
Been thinking 'bout you constantly
But I'm not a holiday
It's up to you to make the move

But I've been needing
Somebody to love me, somebody to love me
Somebody to love me
Somebody to love me, somebody to love me
Somebody to love me
But I've been needing
Somebody to love me, somebody to love me
Somebody to love me

Baby, what you want to do?
Baby, just let in your truth

I've got it on my mind but I'm not your tour guide
Baby, what you want to do? (Baby, what you want to do?)
You haven't had enough, I like being shown off
Baby, just let in your truth (Baby, just let in your truth)
