

## Hobbies 2

### Self Esteem

With my ankles raised up by your neck  
Waiting to see what you'll do next  
My fingers catch inside your breath  
Oh, just take a pause and keep it free  
Sign out from who I'm usually  
You won't be getting close to me

'Cause I'm only human  
What are you?  
I'm leaving 'round back like you asked me to  
I'm human  
What are you?  
What are you?  
And I'm on the outside looking in  
Don't have a place for my adrenaline  
Anything to prove that I'm living  
I'm living

If you're looking for forgiveness  
I have never been the one  
If you're looking for a hobby  
Baby, we can have some fun  
Anything to prove I'm living  
Anything to prove we're free  
As long as I'm not busy

Don't you find it hard we never fight?  
'Cause you've been treating me much kinder  
But the fingers crossed beside you make me nervous after every night  
And I'm still waiting to feel better  
I'll be waiting for that forever

Ooh, what are you?  
Remember we believed 'If Destroyed Still True'  
I'm human and I need you  
I need you  
And I'm on the outside looking in  
Don't have a place from my adrenaline  
Anything to prove that I'm living  
I'm living

If you're looking for forgiveness  
I have never been the one  
If you're looking for a hobby  
Baby, we can have some fun  
Anything to prove I'm living  
Anything to prove we're free  
As long as I'm not busy

Of course I want more  
Of course I want more  
But logic prevails, I don't hope anymore  
Of course I want more  
Of course I want more  
But logic prevails, I don't hope anymore

Let me fuck up your sheets and then leave with no kiss

And admit that we both can't do deeper than this  
And you tell me I'm funny, reply to my name  
But be turning your back after checking I came  
You'll be turning your back after checking I came  
At least that's something

If you're looking for forgiveness  
I have never been the one  
If you're looking for a hobby  
Baby, we can have some fun  
Anything to prove I'm living  
Anything to prove we're free  
As long as I'm not busy

As long as I'm not busy  
As long as I'm not busy  
As long as I'm not busy  
As long as I'm not busy  
As long as I'm not busy  
As long as I'm not busy  
As long as I'm not busy  
As long as I'm not busy
