

Love Second Music First

Self Esteem

(Love second, music first)

You ask me to come over
I am not your placeholder
I look in the mirror
And I see what I wanna see
Wouldn't it feel better?
Isn't being younger?
I look in the mirror
And I see the real me

Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace

(Love second, music first)

Could I have put it better
Than the time you said "respect is key"?
Wait that wasn't you, it was me
Do I really give this out for free?
You should be paying me
For all the hand-holding I do lately
To guide you to see as clearly
It isn't hard baby

Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace

(Love second, music first)

Such a contender
(Love second, music first)
But you will never come first
(Love second, music first)
So just remember
(Love second, music first)
Before you lay with me
(Love second, music first)
Such a contender
(Love second, music first)
But you will never come first
(Love second, music first)
So just remember
(Love second, music first)
Before you lay with me

Let me be gorgeous in peace
Let me be gorgeous in peace

Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace

(Love second, music first)

Somebody will wait
I know that you'll wait it out for me
But baby then you'll take
Yeah listen, you will take
It out on me, eventually
Sure as you breathe, then you'll want more
Sure as the given, I'm game for
You know without saying that it's cursed
'Cause it's always love second, this first
This first

(Love second, music first)

(Love second, music first)
Such a contender
(Love second, music first)
But you will never come first
(Love second, music first)
So just remember
(Love second, music first)
Before you lay with me
(Love second, music first)
Such a contender
(Love second, music first)
But you will never come first
(Love second, music first)
So just remember
(Love second, music first)
Before you lay with me

Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
Let me be gorgeous in peace
