

Rooms

Self Esteem

(Bonus Track)

If this is working
Why's my heart cry out for more? (Could you leave it with me)
Can't help but thinking
This is something to explore (Could you leave it with me could you leave it
with me)

There's something in the way we laugh
Means I can't leave it at that
Have you noticed how I move through rooms
Straight to you
There's something in the way we laugh
Means I can't leave it at that
Have you noticed how I move through rooms
Straight to you

You say it's nothing
That I "fake-agree" with you
Spend your nights thinking
Of the things you'd like to do

I ask you over
Yet again you let me down
So I'll keep my distance, keep my cool
But be around

There's something in the way we laugh
Means I can't leave it at that
Have you noticed how I move through rooms
Straight to you
There's something in the way we laugh
Means I can't leave it at that
Have you noticed how I move through rooms
Straight to you

We're so normal you and me
We're pretending not to be
We're so normal you and me
We're pretending not to be
We're so normal you and me
We're pretending not to be
We're so normal you and me
We're pretending not to be

There's something in the way we laugh
Means I can't leave it at that
Have you noticed how I move through rooms
Straight to you
There's something in the way we laugh
Means I can't leave it at that
Have you noticed how I move through rooms
Straight to you

We're so normal you and me
We're pretending not to be

We're so normal you and me
We're pretending not to be
We're so normal you and me
We're pretending not to be
We're so normal you and me
We're pretending not to be
