

You Forever

Self Esteem

Running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been

Called it off
Turn me on
Talk of mistakes
I've made loads of them
You're beautiful
That never changed
Don't mention her
Don't bring her up again

Something wasn't right and you blamed me
But I always told you to do what you please
If I didn't guide you, you wouldn't see (If I didn't guide you, you wouldn't see)
If this is the end, then this is the end
I do not need any more friends
That's decisive
Do you like that?

You need to be braver
'Cause I did this all without you
And we made a difference
But I still want you beside me
You need to be braver
'Cause I did this all without you
And we made a difference
But I still want you beside me

Running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day

My girls, they take good care of me
But I need less of that lately
My life has been travelling
That's the good thing about me
I'm always leaving

Something wasn't right and you blamed me
But I always told you to do what you please
If I didn't guide you, you wouldn't see (If I didn't guide you, you wouldn't see)
If this is the end, then this is the end
I do not need any more friends
That's decisive
Do you like that?

You need to be braver
'Cause I did this all without you
And we made a difference
But I still want you beside me
You need to be braver
'Cause I did this all without you
And we made a difference
But I still want you beside me

Running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day
You been running 'round in my head all day

Don't need you (To need me)
Call it back (Softly)
Let's hang out (Gently)
Oh, we do such a lot of longing
Very little living
Don't need you (To need me)
Call it back (Softly)
Let's hang out (Gently)
Oh, we do such a lot of longing
Very little living

You need to be braver
I did this all without you
And we made a difference
But I still want you beside me
You need to be braver
I did this all without you
We made a difference
I still want you beside me
You need to be braver
I did this all without you
And we made a difference
But I still want you beside me
You need to be braver
I did this all without you
And we made a difference
But I still want you beside me
You need to be braver
I did this all without you
And we made a difference
But I still want you beside me
