

Poison

Semargl

The Time disappears...
Open eyes - you feel.
You can feel my lips my power, more and more.
My love is so magnetic, your love is so real!
I will steal your heart
And never give you back!
Faster and faster
This pain is killing me.
Faster and faster
This lie is killing us again.
Give my love again,
Break my heart again,
Feel my pain,
Cause your poison!
My love is mystery...
You can't stop this fear.
Hold me one more time
I'll make this disappear.
This love destroying us -
You're puppet in my hands !
You playing by my rules
Cause my name is pain.
Faster and faster
This pain is killing me.
Faster and faster
This lie is killing us again.
Give my love again,
Break my heart again,
Feel my pain,
Cause your poison!
