

MY SHADOW

Semetary

Hi, my name is Semetary, meet my fucking cutter saw
Sawed off AR pulled out, shawty, you know we got extra slugs
Black tee still on when I mob, New Rocks still on when I walk
Ghost Mountain said fuck 'em all, my shadow said let 'em burn
DJ Sorrow
Aaahhh, aaahhh
Semetary

I wake up in the morning like it don't matter
Fuck the world, nobody try me, they know better
I don't do no stupid talk, I don't come around
It's just me, myself and I, plus my shadow
My shadow, my shadow
If I tried, I couldn't run from my shadow
My shadow, my shadow
Ain't got none to talk to, I talk to my shadow

I'm a Haunted Mound veteran, so you can't say beginner's luck
All my boys tote cutters, so your best bet is to pray to God
We could never give a fuck, empty-eyed Napoleon
Fifty-fifty chance I'ma snap if you fuck with us
Haunted Mound so dirty, dirty, put you on that gurney, gurney
Ambulance not fast enough, we did our own surgery
You can look all in my eyes, you cannot see anything
Shadow men stay true for you, we still gon' hate everything

Lord, lord knows that I'm trying hard
But God, God, I fucking hate it here
Chainsaw, I'm rocking Polo, I'm unrepentant
Lil' fuckboy wanna try me, give him Old Yeller
Bury him behind the barn, fucking spit on your grave
Find me in the seventh circle, I'm still gon' be flexing
Honda car whippin' 'round, all covered in corpse paint
Still in my bedroom, dying for a roommate
Keep your distance from me, shawty, you best stay away
Haunted Mound angels, I hope they are hearing me
Shadow stay true to me when everybody else leaves
And when I leave my house, my shadow will come with me

I wake up in the morning like it don't matter
Fuck the world, nobody try me, they know better
I don't do no stupid talk, I don't come around
It's just me, myself and I, plus my shadow
My shadow, my shadow
