

Barely Breathing

Semblant

The closer I get, the darker it seems
My memory slips away
It all came to light from a disgrace
Infeasible to erase

I'm disappearing in plain view
Blissful eyes conceal
Vanishing before the absence
Gets unveiled

Standing in silence I carefully listen
To whispers of the ones
Who've felt this way before

Leave it all behind me
All my dreams buried within
Forgive me one day for all my sins

I'm falling
I fall apart inside my endless solitude
I'm barely breathing when you reach me
If only I knew

I'm falling
I fall apart inside my

I'm falling
I fall apart inside my endless solitude
I'm barely breathing when you reach me
If only I knew
I'm barely breathing in solitude
If only I knew
