

# Black Babylon

Semblant

A cursed nation under serpent's embrace  
The truth is coming  
The birth of damnation and gods made of stone  
The scarlet whore

Time is ending tonight, all people will cry  
Salvation's a lie  
Time is ending tonight, all people will cry  
Salvation's a lie

A fallen creation through another side  
The bringer of light  
The blackest of nights arise over mankind

Nocte Aeternus Libera Me Ex Inferis  
Nocte Aeternus Libera Me Ex Inferis

In the shades of a confidence  
Hides a hollow heart  
There's a sinner inside the saints  
With a burning dark  
We are the last temptation  
We are the false devotion  
The Earth has turning cold  
We build our Black Babylon

A never ending winter's domain  
Our iced landscape  
The path we have chosen there's no return  
Our souls will burn

Nocte Aeternus Libera Me Ex Inferis  
Nocte Aeternus Libera Me Ex Inferis

In the shades of a confidence  
Hides a hollow heart  
There's a sinner inside the saints  
With a burning dark  
We are the last temptation  
We are the false devotion  
The Earth has turning cold  
We build our Black Babylon
