

Gaslighting

Semblant

Kill... kill the stranger
Don't let him close to me

Go now
Run before you realize
You can't hide
Your spirit is leaving your mind

I, I've watched you walking, I followed your steps
A flower's existence doesn't last long
Can't you see what I'm trying to show you?
Come on closer, come on over
Ignore the feelings inside your heart

This is not the end, but changes are everywhere
I write between the lines entwined in me
Staying in control of everything I know
I don't wanna feel the way I feel

Cease... cease the pain in me
Disguise yourself from the enemies

Pieces of memories and flashes of light
Something is growling and asking you...

Try to overcome the fear inside my head
I'll cross the line that limits everything in my path

This is not the end, but changes are everywhere
I write between the lines entwined in me
Staying in control of everything I know
I don't wanna feel the way I feel

Try to overcome the fear inside my head
I'll cross the line that limits everything in my path

This is not the end, but changes are everywhere
I write between the lines entwined in me
Staying in control of everything I know
I don't wanna feel the way I feel
