

# The Blind Eye

Semblant

Look the other way  
Pretend there's nothing there  
The universe revolves around you  
Your choice to be unfair

Turn your face away  
It's hard to look ahead  
The future doesn't look so bright  
Desperation and despair

Destroy the selfishness  
There's no where left to hide  
The universe revolves around you  
On the verge to collide

Revenge's about to come  
Revenge's about to come

Escape before it hits your head  
Before it hits the blind eye  
The blind eye ending

Catch the bullet while you can  
Before it hits the blind eye  
The blind eye ending

Revenge's about to come  
Revenge's about to come

Escape before it hits your head  
Before it hits the blind eye  
The blind eye ending

Catch the bullet while you can  
Before it hits the blind eye  
The blind eye ending
