Through the Denial

Semblant

Through the denial, they ascend
Under fragments of nothing, bring the end

Your reasoning combines the worst of all mankind
Retaliate the difference, condemn the weak and blind
Behind your disguise, the unstoppable decline
Annihilate and terminate through conspiracy and lies

The time approaches for the reckoning
The parasites unravel a triumphant defeat

As we fall, a world undone
Tear apart the innocence behind these eyes
As we fall, the world succumbs
Tear apart the ignorance behind these eyes

A strategy designed to force us to divide
Enshrined insignificance, our social suicide

The fall of denial, our wretched curse
The fall of denial, save us!

As we fall, a world undone
Tear apart the innocence behind these eyes
As we fall, the world succumbs
Tear apart the ignorance behind these eyes

Mocking human minds by praising the divine
Tear apart the ignorance behind these eyes
Mocking human minds by praising the divine
Tear apart the ignorance behind these eyes

The fall of denial, our wretched curse
The fall of denial, save us!

As we fall, a world undone
Tear apart the innocence behind these eyes
As we fall, the world succumbs
Tear apart the ignorance behind these eyes
