

Wasteland

Semblant

This violence precedes me
Counterweight to indifference
Vestige from the dawn of our descent
Born out of fear
Build up by rage
Target any possible threat

There's no way out of this wasteland
Praying for forgiveness
There's no way out of this wasteland
No cure for this sickness
There's no way out

This acid words of fury
Stalemate to recreate
Year after year
Enhancing the plague
By thy holy principle of hate

There's no way out of this wasteland
Praying for forgiveness
There's no way out of this wasteland
No cure for this sickness
There's no way out

Not a day goes by that we don't suffer
We fail to comply with what feels wrong
We are all confined by the sulphur
Wherever we go, we go

There's no way out of this wasteland
Praying for forgiveness
There's no way out of this wasteland
No cure for this sickness
There's no way out
