

All The Time

Semisonic

My love, you can be cruel sometimes
Turn around and be so kind
I just want to be with you all of the time

And my love, you leave me terrified
You give me peace of mind
I just want to be with you all of the time

All the time
Running low, getting high
I just wanna make you mine
All the time
When you laugh, when you cry
I just wanna make you mine
Make you mine

Long nights, waiting for you to show
You shoulda let me know
That you were trying to hitch a ride

I'm falling into the deepest blue
Upstream getting back to you
Every day and every night
Couldn't even tell you why

All the time
When you're real, when you lie
I just wanna make you mine
All the time
Miles to go, the finish line
I just wanna make you mine
Make you mine

Mmm, mmm
What's it gonna take to keep you satisfied?
Mmm, mmm
Tell me what to say to make you change your mind
Mmm, mmm
What's it gonna take to keep you satisfied?
Mmm, mmm
Tell me what to say to make you change your mind
Mmm, mmm
My love, you can be cruel sometimes
Turn around and be so kind
I just want to be with you all of the time
