

Show me, what's up  
Some kind of things you do  
Feel me, feel me baby  
Give me your all, you know I'll do the same

Know that you will find your way with me  
I will beg and plead for more just believe

Lay your love on me, hear me say  
Lay your love on me, see me there  
And we'll keep on going  
And we'll keep on going  
Lay your love on me, hear me say  
Lay your love on me, see me there  
And we'll keep on going  
And we'll keep on going  
Cause we live by that love  
Cause we die for that love  
Cause we live for that love  
And we stand by that love

Love love love love love  
Cause we're living, living, living, living love  
Love love love love love  
Cause we're living, living, living, living love

Show me, what you want me to do  
What you have here, will take you there

Know that you will find your way with me  
I will beg and plead for more just believe

Lay your love on me, hear me say  
Lay your love on me, see me there  
And we'll keep on going  
And we'll keep on going  
Lay your love on me, hear me say  
Lay your love on me, see me there  
And we'll keep on going  
And we'll keep on going  
Cause we live by that love  
Cause we die for that love  
Cause we live for that love  
And we stand by that love

Love love love love love  
Cause we're living, living, living, living love  
Love love love love love  
Cause we're living, living, living, living love

Intoxicated, rocking the room  
When we breathe together  
There's no words no regrets  
But I say na, na, na  
And I say na, na, na  
Intoxicated, rocking the room  
When we breathe together

There's no words no regrets  
But I say na, na, na  
And I say na, na, na
