

## Let It Enfold You

Senses Fail

So the lie now is my weapon  
Like a bush dried withered in the sun  
With this spark I'll go up in flames.  
I'd lay my guts out but they're too small to see  
It's kinda cute how I pretend to be  
Everything but the instrument I am.

Peace or happiness  
So let it enfold you

A birth to life is what I'm after  
My first name won't be my last one  
Let the light just drip into your eyes.

So it's true my words are contrived  
I tell lies just to get into your mind  
I'm as fake as a widow's smile.  
This mask of glass is what I choose to wear  
So I won't ever have the need to bear  
The total truth to anyone but me.

Peace or happiness  
So let it enfold you

A birth to life is what I'm after  
My first name won't be my last one  
Let the light just drip into your eyes.  
The light (the light) into (into) your eyes (your eyes) all night

I'm just a bad actor stuck with a shitty script  
All of my lines are cheap and the cast is weak  
There was no music for the first time I got kissed  
There was no femme fatale, my mistress wasn't rich.  
So I've been formatted to fit your TV screen  
The film went straight to tape, I'll bow out quietly.  
So quietly. So quietly.

Please do this now I beg  
Duct tape my arms and legs  
Throw me into the sea  
(Please save me, please save me)  
[x2]

Now watch the waves eat me  
Setting my cold heart free  
I'll wash ashore in weeks  
(You can't save me, can't save me)

Now watch the waves eat me  
Setting my cold heart free  
I'll wash ashore in weeks  
(You can't save me, you can't save me now)
