Hey

When I opened my eyes, sunrise
Like a habit, my motion looks for you
Yeah, my empty heart is
Filled with memories with you
Inside, I think of you

Though you can't hear
I say to myself

I want your love
Love & Affection
I want your love
Love & Affection hoo
I hate your love
Love & Affection

The daylight that shines on me resembles you
Everything is a connection I shared with you
Yeah midnight, your love warmly embraced
My exhausted heart

Feels like you're by my side

I didn't think I could feel more
But like a lie, I say

I want your love
Love & Affection
I want your love
Love & Affection hoo
I hate your love
Love & Affection

You warmly held me
I was in your arms
Now I'm erasing everything
Yeah

I will forget
Love & Affection
Now goodbye
Love & Affection

I hate your love
Love & Affection
I hate your love
Love & Affection hoo
I hate your love
Love & Affection
Hey
