Ya I know
In the darkness
It's only you and me
Look at my eyes, stop
Come closer
So I can't breathe
Just me and you
Stop time

The way you look at me
Your warmth
Fills me up
In this heart fluttering feeling
Shine on me between the faint lights
Now you and me
Close your eyes yeah

The moonlight shines on me
The soft moonlight
Whisper to me
I love you in Moonlight
Melting down
Love you in Moonlight
Hug me

Baby boy
I'm falling
Into your eyes
I don't know why
Hug me in
Your warm embrace
Shh shh woo

My eyes that look at you
My continuous trembling
Fills this place up
In this heart fluttering feeling
Shine on me between the faint lights
Now you and me
Close your eyes

The moonlight shines on me
The soft moonlight
Whisper to me
I love you in Moonlight
Melting down
Love you in Moonlight
Hug me

Our moonlight
I can't take my eyes off you
Now forget everything I I I oh
Hold me forever
I'll always be there baby

The moonlight shines on me
The soft moonlight
Whisper to me
I love you in Moonlight
Melting down
Love you in Moonlight
Hug me

The moonlight shines on you
The moonlight is hotter
Hold me tight
I love you in Moonlight
Melting down
Love you in Moonlight
Give me love
