

And Me

Seori

In the club
I'm just watching them move like Wallflower
It's too hot to be close
So I'm getting colder
And nobody answers
They can't breathe in the water
Cannot spit out a word
Cause I'm made out of water

Why do you make that face again?
Confusing, a little boring
What I want isn't here anymore

Why did you talk about love?
With eyes full of loneliness
I think I need to go back home
