

Trigger

Seori

Breathe it in, my baby
You triggered my lady
You know I always repay
Let's enjoy it slowly
I should want, you should want

People say my love is unsafe
It's like a swamp, I don't know what the hell to do
People like to talk nonsense
And only you catch my attention
My mood is covering your hollow blade (hollow blade)
It's like the fog, what are you doing with that shit?
After the party don't ask me about my ex
Today he'll be my dinner

I love it when you cry
Be mine, mine
I love how you move in pain
Be mine, mine
I love the way you despair
Be mine, mine
Are you gonna leave me?
Are you gonna leave me?

Bite me like that again
You hid the bullet in the sand
Do it like me
Now choose to trigger or stay
(I heard you)

Killed me a hundred times in your dreams
That's funny you can't even touch me anyways
Or do you wanna bite my lips and taste my blood?
Come, be dirty with me
This is why I like you, good boy
You sell smiles, a boy pretend to be sincere and kind
Clothed with hypocrisy, I'm gonna tear it
Welcome to its collapse

I love it when you cry
Be mine, mine
I love how you move in pain
Be mine, mine
I love the way you despair
Be mine, mine
Are you gonna leave me?
Are you gonna leave me?

Bite me like that again
You hid the bullet in the sand
Do it like me
Now choose to trigger or stay
I'm gonna present you with a very long night
