

# My Emergency

September

I can hear the sound  
Of sirens all around  
I see blood on the ground  
Blood on the ground  
I hear something's breaking  
A heartache in the making  
Oh what have you done?  
What have you done?

Because I can't cope  
When you are near  
Somebody save me 'cause  
I can't breathe now  
'N' I can't love with too many tears, oh  
You're my emergency

Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
Let me go before I will shutdown  
Just let me be, oh, oh, oh, oh  
Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
I know you're no good  
'N' I know that I should live without you  
You're my emergency

You turn me out, turn me in  
Spin me like mannequin  
Up and around  
You play me around

Don't want a bitter ending  
But I can't keep pretending  
I see through your eyes  
Your brilliant disguise

Because I can't cope when you are near  
Somebody save me 'cause  
I can't breathe now  
'N' I can't love with too many tears, oh  
You're my emergency

Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
Let me go before I will shutdown  
Just let me be, oh, oh, oh, oh  
Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
I know you're no good  
'N' I know that I should live without you  
'Cause you're my emergency

Because I can't cope when you are near

'N' I can't love with too many tears, too many tears  
Because I can't cope when you are near  
'N' I can't love with too many tears, too many tears

Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
Let me go before I will shutdown  
Just let me be, oh, oh, oh, oh  
Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
I know you're no good  
'N' I know that I should live without you  
You're my emergency

Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
Let me go before I will shutdown  
Just let me be, oh, oh, oh, oh  
Why do you keep selling my heart out?  
You're my emergency  
My emergency baby  
I know you're no good  
'N' I know that I should live without you  
You're my emergency
