

Something's Going On

September

I want you shaking every time you hear my name
I dream about it every hour, every day
And if you think its funny well you won't when I'm gone
I like to see your love when I start dropping the bombs
I want to bring you pain in each and every way
I've got a reason for living and it's my love

I know something's going on
Baby take a look at me now!
How long have you done me wrong?
You know time can take a lie and make it true
I know something's gong on
Baby stay away from me now
How long can you make it on your own?
Now it's time to say goodbye and it's on you

I'm going to wreck your cars, set your house on fire
I'll get elected and tell the world that you're a liar
And if you think I'm crazy well I just don't care
Why don't you come and try and shut me up if you dare
You never had the kind of nightmares I'll supply
I've got a reason to live and it's not love

I know something's going on
Baby take a look at me now!
How long have you done me wrong?
You know time can take a lie and make it true
I know something's gong on
Baby stay away from me now
How long can you make it on your own?
Now it's time to say goodbye and it's on you

Don't try to make this about me
Because you
You would be nowhere without me
Without me

I know something's going on
Baby take a look at me now!
How long have you done me wrong?
You know time can take a lie and make it true
I know something's gong on
Baby stay away from me now
How long can you make it on your own?
Now it's time to say goodbye and it's on you
