

# Walk Away

September

Oh yeah, yeah  
Oh, oh

Surrounded by the city lights  
Dancing shadows on the streets tonight  
That's the only world we know  
Somewhere outside there's something beautiful

Everyday we have been trying not to pretend  
We are close to the end  
Must this be over?  
Don't say it's over

How do I keep this pain away?  
What can I do to make you stay?  
How do I find the words to say don't just  
Walk away  
Walk away

It's always a price we gotta pay  
Sometimes you gotta lose if you wanna gain  
How do I find the words to say don't just  
Walk away  
Walk away  
Now

Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Now

We got lost along the way  
We think we're moving but still nothing's changed  
I take it in but leave out  
'Cause it's easy not to think about  
But let's talk it over  
Don't say it's over

How do I keep this pain away?  
What can I do to make you stay?  
How do I find the words to say don't just  
Walk away  
Don't walk away

It's always a price we gotta pay  
Sometimes you gotta lose if you wanna gain  
How do I find the words to say don't just  
Walk away  
Walk away

Don't walk away, no, no  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Now

Everyday we have been trying not to pretend  
We are close to the end  
Let's just talk it over  
Don't say it's over

Don't walk away, no, no  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Now

Don't walk away  
Don't you just  
Walk away  
Walk away  
That's a price we gotta pay  
Walk away  
Walk away  
Don't you just  
Walk away  
Walk away  
Now  
Don't walk away
