

A God that wants to die

"Why is obtaining knowledge a reason for punishment?  
Stupidity is definitely not an option for the truly powerful leader  
Who is leading who and to what end?  
Why has revelation of truth (apocalypse) been connected  
With the sense of great awe and great disaster?  
Mankind desperately needs someone else to clean up  
Its mess and a scapegoat to blame for its own faults  
Is human a parasitic organism on the body of earth?  
Is this the horrid truth that will be realised at the point of no return?  
When a parasite sucks the life of its host completely, it also dies  
Is man a suicidal God?  
Will the paradise of Earth burn in flames?"

Bring us the end  
Harvest the crops of Men  
Horrid winds are blowing today. Hear them!  
It is the wrath of Cain  
Bringer of plagues and disease  
Doom leads your hand  
Writing the Apocalypse

A God that wants to die  
A tragic kind of killer  
Lunatic, fanatic  
Your self's greatest deceiver

Sulphur rain  
You'll know the secrets of Hell  
Your leaders... revealed  
Shadows cover the naked kings  
Bringer of plagues and disease  
Doom leads your hand  
Writing the Apocalypse

A God that wants to die  
A tragic kind of killer  
Lunatic, fanatic  
Your self's greatest deceiver

God wants to die!

You can turn Paradise into a wasteland  
It is your greatest design  
As tyrant, you demand nature's powers to obey  
From suicidal wrath no one will escape...
