

Back to Myself

Serena Ryder

Little truth, big lie
Living in the middle of Ojai
Saying you can heal the sick
When you're just trying to get rich
Take a drop, take a pill
Pay a thousand dollar bills
Whatcha going to do if it don't work
Or the side effects make it worse

When you're living in hell
You'll try anything that helps you
Even if it hurts

I welcome the pain
Won't give up the chase
I'll find my way back to myself
The only way out is through
The only thing I can do
Is find my way back to myself

Even green things grow
Underneath a blanket of snow
I'm at my best when I'm at my worst
I've got my hands down in the dirt
In the pressure and the noise
I can hear a tiny voice
Trying to do its best to guide me
To a future that I can't see yet

I welcome the pain
Won't give up the chase
I'll find my way back to myself
The only way out is through
The only thing I can do
Is find my way back to myself

I find my way back to myself
I find my way back to myself I'm gonna find my way
Ooh, ooh, ooh, ooh, oh yeah
