Differently

Serena Ryder

In the house where I was raised I agreed I obeyed
Always had to make it okay
Dinner table set with her tails of regret
Clean your plate until there's nothing left
Even back then my idea of a man
Was a loner who didn't show his feelings
Maybe that is why I made the same mistakes

But now that it's you and now that it's me
Whatever we do, let's do it differently
Whatever we choose forget Adam and Eve
Let's try something new and do it differently

Every time I got involved with someone I was al
-ways playing roles like my mom
Thinking that the hurt was the pain I deserved
Trying to save the sailor from the surf
Baby back then couldn't even imagine
That falling didn't mean I was crashing
Maybe that is why it took so long to face

But now that it's you and now that it's me
Whatever we do, let's do it differently
Whatever we choose forget Adam and Eve
Let's try something new and do it differently

(Differently) like nobody else has ever done it before
(Differently) and we're finding new ways, new ways to open the door
(Differently) I used to think love was a battle, a war
A fight to be won, always keeping score

But now that it's you and now that it's me
Whatever we do, let's do it differently
Whatever we choose forget Adam and Eve
Let's try something new and do it differently
