

# Firewater

Serena Ryder

You got the firewater runnin' through ya  
The kind of remedy that will undo ya  
Tryna get the pain to go away  
Sayin' all the things you shouldn't say  
You're acting like you never even knew me  
You're everything you never wanted to be  
Tryna get the pain to go away  
Playin' all the games you shouldn't play

Fillin' me up, like I'm a cup  
Never enough, bottom is up  
All rise to the remedy  
All rise

Hookin' me up like I'm a drug  
Don't wanna stop, never enough  
All rise to the remedy  
The remedy

Just pour me another one  
Somethin' to make me numb  
Or make me too blind to see  
See what you did to me

Just pour me another one  
It's something I'm leanin' on  
Don't get me wrong, I need  
Back what you took from me

You got the firewater runnin' through ya  
You suckin' on it like it was a soother  
Drinkin' to the one that got away  
Bottlin' it up until you break

Fillin' me up like I'm a cup  
Never enough, bottom is up  
All rise to the remedy  
The remedy

Just pour me another one  
Somethin' to make me numb  
Or make me too blind to see  
See what you did to me

Just pour me another one  
It's something I'm leanin' on  
Don't get me wrong, I need  
Back what you took from me

It's been so long  
Since you've been gone  
Can't feel my pain  
I can't escape  
Can't feel my legs  
To walk away

Just pour me another one

Somethin' to make me numb  
Or make me too blind to see  
See what you did to me

Just pour me another one  
It's something I'm leanin' on  
Don't get me wrong, I need  
Back what you took from me

You got the firewater runnin' through ya  
The kind of remedy that will undo ya  
You got the firewater runnin' through ya
