

Hands

Serena Ryder

There's a cold in my veins
I thought I'd won
But I never do
Hell is what I'm going through
There's hole in my way
Standing in my way
Standing in my way

Take me down from the edge
Till I know where I'm going again
Till I know where I'm going again
My heart is in your hands
The strongest one, the one who stayed
Till I know where I'm going again
Till I know where I'm going again
My heart is in your hands

All the remedies I take to stop the pain
But they never do
Help but they never do
Is it too high a price to pay
Standing in my way
Standing in my way

Take me down from the edge
Till I know where I'm going again
Till I know where I'm going again
My heart is in your hands
The strongest one, the one who stayed
Till I know where I'm going again
Till I know where I'm going again
My heart is in your hands

All my hope is there in your hands
All I know is there in your hands
All my love is there in your hands
There in your hands, there in your hands
Hands, ooh, hands ooh

Take me down from the edge
Till I know where I'm going again
Till I know where I'm going again
My heart is in your hands
The strongest one, the one who stayed
Till I know where I'm going again
Till I know where I'm going again
My heart is in your hands
Hands, ooh, hands ooh
