Hurts

Serena Ryder

I'm in the dark, I cross my heart
I put my hand into the flame
I am a fool for needing you
There is no love without this pain

You're like a thief, my enemy
How could you be my everything?
Caught in a trap, I've met my match
No longer you, no longer me

I'm gonna love you
Till it hurts, till it hurts
I'm gonna love you
Till it hurts, till it hurts

It's true, we could
Be doomed for good
But I'm gonna love you
Till it hurts, till it hurts

We couldn't wait, I seal my fate
And throw my arm into the sea
Never enough, we took too much
And felt the rush of destiny

I feel the way we'll never say
It's like a game we'll never win
I wanna play, I wanna stay
Forever yours until the end

I'm gonna love you
Till it hurts, till it hurts
I'm gonna love you
Till it hurts, till it hurts

It's true, we could
Be doomed for good
But I'm gonna love you
Till it hurts, till it hurts

Let the waves roll upon me
Let the waves roll
Let the waves roll upon me
Let the waves roll

Let the waves roll upon me
Let the waves roll
Let the waves roll upon me
Let the waves roll

I'm gonna love you
Till it hurts, till it hurts
I'm gonna love you
Till it hurts, till it hurts

It's true, we could
Be doomed for good

But I'm gonna love you
Till it hurts, till it hurts

I'm gonna love you
Till it hurts, till it hurts
I'm gonna love you
Till it hurts, till it hurts
