

# Revival

Serena Ryder

I've been thinking about the first time we met  
And I regret I made you my religion  
Holding me like I was some kind of pet  
You made me fetch and said I was a vision  
Funny thing about hindsight is that  
There is no reset you see in perfect vision  
Didn't know that I was fucked in the head  
Until you said you're making me a mission

I rejoiced when the bright light became  
At the end of the tunnel of chains  
Watch me come alive  
Take me from the tide  
No longer your disciple  
Watch me come alive  
Dying to survive  
Our spirit its arrival  
This is my revival  
This place is my revival

Loving you was like an unholy hell  
Under the spell of lies that you were preaching  
Every time I looked into your eyes  
The paradise a crime you were deceiving  
Now I'm never gonna bow down for you  
A final proof the truth that you're a demon  
Gotta a fire inside mine to light  
I'm taking back what right to your allegiance

I rejoiced when the bright light became  
At the end of the tunnel of chains  
Watch me come alive  
Take me from the tide  
No longer your disciple  
Watch me come alive  
Dying to survive  
Our spirit its arrival  
This is my revival  
This place is my revival

I'm taking the high road  
You're taking a seat  
This love is survival  
You're nothing to me  
I'll follow the rhythm  
I'll follow the beat  
I'm feeling the fire  
And I'm finally free

I rejoiced when the bright light became  
At the end of the tunnel of chains  
Watch me come alive  
Take me from the tide  
No longer your disciple  
Watch me come alive  
Dying to survive  
Our spirit its arrival

This is my revival  
This place is my revival
