

Call to Arms

Serenity

Rise again, it's our age to win
When the world breaks down
our night has come to fight

Carpe Noctem - we will pray
Carpe Noctem - do not forsake me
Carpe Noctem - we will pray
Carpe Noctem - do not forsake me

Beyond, beyond the, beyond the fallen kings
Beyond forgotten dreams, we've found our destiny
So long, we're waiting, until our time has come
Until the shining moon will pave our victory

Call to arms tonight
For our reign we'll fight
For tomorrow's freedom
We sacrifice our lives
Call to arms with pride
Without fear to die
For tomorrow's freedom
We sacrifice our lives to win this fight

Carpe Noctem - we will pray
Carpe Noctem - do not forsake me

The night, it's coming, it's creeping through our minds
Tonight the chosen ones we will defeat
We've prayed, forsaken, until the dark has come
Until we came along to reign again

Call to arms tonight
For our reign we'll fight
For tomorrow's freedom
We sacrifice our lives
Call to arms with pride
Without fear to die
For tomorrow's freedom
We sacrifice our lives to win this fight

Call to arms tonight
For our reign we'll fight
For tomorrow's freedom
We sacrifice our lives

Call to arms tonight
For our reign we'll fight
For tomorrow's freedom
We sacrifice our lives
Call to arms with pride
Without fear to die
For tomorrow's freedom
We sacrifice our lives to win this fight

Carpe Noctem - we will pray
Carpe Noctem
