

## Changing Times

### Serenity

All the fights are gone  
We're back among our people  
Where peace and love found their home  
Rest the swords and fear  
Blades are finally sleeping  
Forever and tonight  
Awaiting changing times

When the night has come  
Well raise our horns to heaven  
While we sing this song with pride  
We'll chant till the morning sun  
This anthem all together  
It's called the song of changing times

When the fire burns  
Our hearts are brightly beating  
We will stay where we belong  
No more tears and pain  
No battle makes us bleeding  
We celebrate tonight  
United singing knights

When the night has come  
Well raise our horns to heaven  
While we sing this song with pride  
We'll chant till the morning sun  
This anthem all together  
It's called the song of changing times

When the night has come  
Well raise our horns to heaven  
While we sing this song with pride  
We'll chant till the morning sun  
This anthem all together  
It's called the song of changing times
