

Invictus

Serenity

Invictus
Our Leader
It's our day to win
Invictus
We follow
We're faithful to the king

The air is getting thicker
You're tumbling in your mind
The ashes of the fire
Will slowly make you blind
You're feeling all alone
You're lost and deep inside
You worried of yourself
So come with us to fight

We're the knights of light
Victorious we'll be
Join the Holy Crown
Come ride with us, to fight beside the King

Invictus
Our Leader
It's our day to win
Invictus
We follow
We're faithful to the king
Defeater
The hero
The Lion of the Sword
Invictus
We'll find our way
To fight the enemies

Everything is changing
Changing in your mind
The way we are believing
Will never make us blind
Facts we can't deny
Are memories of the past
The battlefield comes nearer
Through the dark

We're the knights of light
Victorious we'll be
Join the Holy Crown
Come ride with us, to fight beside the King

Invictus

We're faithful to the king

Invictus
We'll find our way
To fight the enemies
