

My Farewell

Serenity

We believed
The world we've built is ever lasting
Through the years
We forgot, one day we have to go
Won't be safe from dead no more
Do we still believe?

Will we go down?
Will we fly high, close to heaven?
Thrones and crowns
Won't mean a thing where we will have to go
Won't be safe from dead no more (no more)

Don't you see our tragedy
I'm a thousand miles from heaven
Drowned to hell
Losing you has sealed my end, oh
No belief, no you and me
Screaming thousand times to heaven
My farewell to our story till the end
My farewell

Sinking down in sorrow
Weak defending, flames start chasing
Seems there's no tomorrow
For my soul, this is our last goodbye
It is time for us to die (to die)

Don't you see our tragedy
I'm a thousand miles from heaven
Drowned to hell
Losing you has sealed my end, oh
No belief, no you and me
Screaming thousand times to heaven
My farewell to our story till the end

Decades we could defy
Everything at once
It has been worth to try
Though when we've lost tonight

Don't you feel and don't you see
Our life is changing

Don't you see our tragedy
I'm a thousand miles from heaven
Drowned to hell
Losing you has sealed my end, oh
No belief, no you and me
Screaming thousand times to heaven
My farewell to our story till the end

The story ends
It's my farewell
