

# The Sky is our Limit

## Serenity

To our leaders and our heroes  
Don't you ask yourselves anymore?  
Why you led the world to darkness?  
Without sorrow

Don't you see our hearts are suffering?  
You still ignore  
There is no balance  
How we go on

Just the sky is our limit  
We could set this world way high above  
Just the sky is our limit  
Can we be the answer?  
Our world is at the limit  
We have taken from her far enough  
'Cause the sky is our limit  
We could be the end  
Or we will be the answer?

To ourselves to human beings  
Keep the way like we did before  
Let's stay together  
Let's aim for more

There is no earth without a core  
There is no light inside war  
So let us keep on living

Just the sky is our limit  
We could set this world way high above  
Just the sky is our limit  
Can we be the answer?  
Our world is at the limit  
We have taken from her far enough  
'Cause the sky is our limit  
We could be the end  
Or we will be the answer?

Just the sky is our limit  
We could set this world way high above  
Just the sky is our limit  
Can we be the answer?  
Our world is at the limit  
We have taken from her far enough  
'Cause the sky is our limit  
We could be the end

Just the sky is our limit  
Just the sky is our limit  
We could set this world way high above  
'Cause we all know  
We could be the end  
Will we be the answer?  
Will we be the answer?  
We are still the answer
