# Flying

**Sergey Lazarev (Сергей Лазарев)**

I'm here all alone
I'm thinking about you
Bout the pain you've put me through...
I'm trynna move on
I'm trynna forget you
But I just can't face the truth

I'll end this world
I'll stop the thunder
So drop your weapons behind the battle line
'Cause I know in the end I'll be fine

Flying, I'm flying straight through the sky
And I, I'm never going back to you
Flying, I'm breaking free from your lies
Tonight, for me noone to hold on to
You know those games you play
In my mind, in my mind
There's just one thing I'm saying:
Bye-bye-bye, bye-bye-bye
Flying, I'm flying straight through the sky
Don't try to stop me

Now, I won't cry over our memories
After all you've said and done
Got nothing to hide
Don't need you to save me
I can face this world alone

I'll end this world
I'll stop the thunder
So drop your weapons behind the battle line
Cuz I know in the end I'll be fine

Flying, I'm flying straight through the sky
And I, I'm never going back to you
Flying, I'm breaking free from your lies
Tonight, for me noone to hold on to
You know those games you play
In my mind, in my mind
There's just one thing I'm saying
Bye-bye-bye, bye-bye-bye
Flying, I'm flying straight through the sky
I'm never coming back, so
Don't try to stop me now

I'm here all alone
I'm thinking about you
'Bout the pain you've put me through
Guess what, I moved on
I'm gonna forget you
So please, forget me too

Flying, I'm flying straight through the sky
And I, I'm never going back to you
Flying, I'm breaking free from your lies
Tonight, for me noone to hold on to

You know those games you play
In my mind, in my mind
There's just one thing I'm saying:
Bye-bye-bye, bye-bye-bye
Flying, I'm flying straight through the sky
(Don't try to stop)
Don't try to stop me now

You know those games you play
In my mind, in my mind
There's just one thing I'm saying:
Bye-bye-bye, bye-bye-bye
Flying, I'm flying straight through the sky
