

# Carnaval

Sérgio Mendes

Welcome to the celebration  
It's a jubilation, it's the carnaval  
People in the streets are dancing  
No time for romancing, it's carnaval  
Focused people, body splashing, their eyes are laughing into your dreams  
No one can resist the magic and can miss the music of the carnaval  
No one can resist the magic and can miss the music of the carnaval

No one can resist the magic and can miss the music of the carnaval

You live it, you like it, you love it, you miss it  
Get up, get up, go now it's blasting  
It's only asking anything your heart desires  
You live it, you like it, you love it, you miss it  
Get up, get on all this fun that's glowing  
The music's flowing  
Welcome to the carnaval
