

## For Me (Arrastao)

Sérgio Mendes

Hey, there's a hum in the air  
Hey, every star's in a spin  
Hey, something's saying out there  
Hey, something's gonna begin  
For me

Never at no time was there a night like this  
Never at no time was every star so clear  
Never at no time has my heart beat so fast  
Never at no time was everything so clear

Somewhere there's someone else who feels it too  
Something rare and wonderful  
Is due

Hey, there's a fire in the sky  
Hey, and the moon's in a dive  
Hey, it's a dream you can't buy  
Hey, life is coming alive  
For me

Never at no time was there a night like this  
Never at no time was every star so clear  
Never at no time has my heart beat so fast  
For me  
Never at no time was there a night like this
