

# VooDoo

Sérgio Mendes

Tell me what to do  
You could stop my heart by saying goodbye  
And not returning, that's a lesson not worth learning  
So don't you try it, I would die alone without you  
If you're angry then just let me know it  
No, don't be afraid to show it  
You can't help me but you're foolin', you can't help me but you  
're foolin'  
You could stop my heart by telling me lies  
Without a reason, that's a crime as cold as treason  
So don't you try it, I would die betrayed forever  
If you're lonely then please don't conceal it  
No, don't be afraid to feel it  
Oh, oh
