

## Memories

Memories

Keep me waiting for ya, keep me waiting for ya

Leave with me

To the stars above, I think I'm ready for ya

Memories

Keep me waiting for ya, keep me waiting for ya

Leave with me

To the stars above, I think I'm ready for ya

Wait for me, I'm not far behind

I know that I can change

Remembering all of those nights

Beneath the window frame

Don't know why

We keep going, running round in the same place

Can't decide

To live my life on the ground or in outer space

Memories

Keep me waiting for ya, keep me waiting for ya

Leave with me

To the stars above, I think I'm ready for ya

Memories

Keep me waiting for ya, keep me waiting for ya

Leave with me

To live my life on the ground or in outer space

Memories

Keep me waiting for ya, keep me waiting for ya

Leave with me

To the stars above, I think I'm ready for ya

Memories

Keep me waiting for ya, keep me waiting for ya

Leave with me

To the stars above, I think I'm ready for ya
