Safe With You

Serhat Durmus

Had a dream where I was drowning
Kept me sleepless through the night
When I woke up in the morning
Baby you were laying by my side
And I hope that you know
That by your side I'm feeling free (feeling free)
And you make me feel like everything's okay
As long as you are next to me

You got me feeling safe with you, I'm safe with you
I know when I'm afraid, you showed me what to do
Whenever I'm in need that I can count on you
When I'm about to drown, you'll never let me down

I'm safe with you
Got me feeling safe with you

Yet again, the day is over
And it's time to fall asleep
But this time I ain't scared no more
And I will find a way to breathe

You got me feeling safe with you, I'm safe with you
I know when I'm afraid, you showed me what to do
And when I was in need that I can count on you
You save me when I drown, you're calm but still around

'Cause I'll always be safe with you

I'm so glad I got to know ya, know ya
You'll live with me till the end
I'm so glad I can't forget you, get you
'Cause I'm showing me again

What to do, what to do

Got me feeling safe with you

Let me dream
