

Things I Do

Serhat Durmus

You, tell me you're not into love again
Even though you adore me
So what you just use me
Oh, you turned your back and let me fall
I'll rise above it all
Stayin' the strongest love

Better (better, better, better)
Things I do (things I do, things I do)
Better (better, better, better)
Things I do (things I do, things I do)

Be-e-better (better, better, better)
Things I do (things I do, things I do)
Better (better, better, better)
Things I do (things I do, things I do, things I do)

I guess, I let my own self down
Thinkin' that you'd come around
I got better things I do
You're okay (oh) you turned your back and let me fall
I'll rise above it all
Stayin' the strongest love

Better (better, better, better)
Things I do (things I do, things I do)
Better (better, better, better)
Things I do (things I do, things I do)

Be-e-better (better, better, better)
Things I do (things I do, things I do)
Better (better, better, better)
Things I do (things I do, things I do, things I do)

You won't catch me feelin' blue not over you
Thinkin' that you'd come around
I got better things I do
