

# I Can Do Magic

Serious Black

Can you see beneath the surface?  
Don't ever let it show  
Can you feel the way it ripples at your touch?  
Can you hear the children whisper?  
He'll never let them go  
But you never know

I can do magic!  
Yeah-year!  
I can do magic!  
I can  
I can do magic!  
It's true  
I can do magic!  
With you

As you learn my long-kept secret  
I've kept it long enough  
I can see the trepidation in your touch  
As if you know too much

I can do magic!  
Yeah-year!  
I can do magic!  
I can  
I can do magic!  
It's true  
I can do magic!  
With you

Bearing this in mind  
Mr. Nightmist mustn't know  
We must find him you and I  
He might never let them go  
Throwing caution to the wind  
As we challenge space and time  
So our journey must begin  
With a brand new paradigm  
Cast your net too wide you fail  
So we ponder what we know  
Upon ships of death we sail  
O-oh!

I can do magic!  
Yeah-year!  
I can do magic!  
I can  
I can do magic!  
It's true  
I can do magic!  
With you
