

Apocalyptic Dance

Serj Tankian

A sad looking city
Perfunctory pity
We have not evolved
Ignorant masses
All voting for asses
We have not arrived

Our whole world is falling to pieces
We don't know our pieces
Come help me pick them up
Death and destruction is rampant
Apocalyptic dance
Come help me take it down

No more words are read
All the birds are dead
Falling to the ground
There are no more empires
Just burning campfires
Please take me through the night

Your life can make a difference
It's the path of dissidence
Don't look at them, except in the eyes

Our whole world is falling to pieces
We don't know our pieces
Come help me pick them up
Death and destruction is rampant
Apocalyptic dance
Come help me take it down

No more words are read
All the birds are dead
Falling to the ground
There are no more empires
Just burning campfires
Please take me through the night

Երես դուխով, երես փախուր

Ժառանգորդներ դեպի բլուր

Լուռ ու սրմունջ

Մենք պիտի բան չենք, արդարություն

Հավասարություն, եղբայրություն

Ազատություն

Արդարություն, հավասարություն

Մենք պիտի բան չենք, ազատություն

No more words are read
All the birds are dead

Falling to the ground
There are no more empires
Just burning campfires
Please take me through the night

No more words are read
All the birds are dead
Falling to the ground
There are no more empires
Just burning campfires
Please take me through the night
