

## Old & Fine

serpentwithfeet

Love that you call everybody's motha, mama  
I could search for a sweeter man  
But I won't find him  
Love you like I love the dawn chorus  
I'm ready for the road before us

Wanna spend a long time with you  
Ain't gon' put no clock on it  
Wanna get old and fine with you

Wanna spend a long time with you  
Ain't gon' put no clock on it  
Wanna get old and fine with you

Old and fine, oh

Old, fine wit you  
Old, fine wit you  
Old, fine wit you

Knew you were mine  
When you left a note for the server  
Knew you were mine when your toast became a sermon  
I like the way you gaze at me  
I grow ten feet taller when you're near, sweetie

Wanna spend a long time with you  
Ain't gon' put no clock on it  
Wanna get old and fine with you

Wanna spend a long time with you  
Ain't gon' put no clock on it  
Wanna get old and fine with you

Old and fine, oh

Old, fine wit you  
Old, fine wit you  
Old, fine wit you

Old, fine wit you  
Old, fine wit you  
Old, fine wit you
