

As Good As It Gets

Set It Off

They tell me that I'm 10 feet tall
Then tell me why I feel so small
I'd break my neck to have it all (To have it all)
I'm back down on my knees again
I feelin' like there's nothin' left
I'd break my neck to get ahead (To get ahead)

And I think it's my fault that I'm hitting this wall
That I built for myself
'Cause the minute I get what I said that I wanted
It's never enough

Is it as good as it's ever gonna be, ever gonna be?
What if I peaked too soon?
Is it as good as it's ever gonna be, ever gonna be?
What have I got to lose?
There's gotta be more than this
There's gotta be somethin' I missed
As good as it's ever gonna be, ever gonna be
Hell nah-na-na-na-na, this ain't as good as it gets

Living like I'm on the run
But I don't even know what from
I can't go back until I won

And I think it's my fault that I'm hitting this wall
That I built for myself
'Cause the minute I get what I said that I wanted
I want something else

Is it as good as it's ever gonna be, ever gonna be?
What if I peaked too soon?
Is it as good as it's ever gonna be, ever gonna be?
What have I got to lose?
There's gotta be more than this
There's gotta be somethin' I missed
As good as it's ever gonna be, ever gonna be
Hell nah-na-na-na-na, this ain't as good as it gets

Is it as good as it's ever gonna be, ever gonna be?
What if I peaked too soon?
Is it as good as it's ever gonna be, ever gonna be?
What have I got to lose?
There's gotta be more than this
There's gotta be somethin' I missed
As good as it's ever gonna be, ever gonna be
Hell nah-na-na-na-na, this ain't as good as it gets

There's gotta be more than this
There's gotta be somethin' I missed
As good as it's ever gonna be, ever gonna be
Hell nah-na-na-na-na, this ain't as good as it gets
