

Pathological

[Set It Off](#)

Wow, never seen a kid throw stones at their own glass house
Wow, tryna build a life for himself just to burn that down
Now, it's all evident
Got blood on your hands while you plead innocent
You're so in denial, you believe all the webs of deceit
You've been weavin' and leavin' us in
Goddamn!
You never thought you'd get found out
You ain't that slick buddy, word got 'round
Pluggin' my nose when you come round town
'Cause I smell that shit spilling out your mouth

Fake a tragedy, an injury, till you turn a profit
Weapon using all my empathy to reach in my pockets
Evil tendencies got me believing he's out of options
I'm on my apathy, it's time to put your ass in the coffin

How do you sleep
In that bed you built from debris?
Of bridges you're burnin'
Hope it was worth
Losing what you thought you deserve
You la-la-la-lie like it's pathological

Pathological

Like how you gonna act like everybody is an idiot?
You're kiddin' yourself, bitch
You need some fuckin' discipline
So listen up and focus
Go ahead, pop a Ritalin
Pop quiz, can you tell me who the victim is?
Me?
Err, sorry, wrong answer
Know you love to say that in front of the camera
Look so good when you twist that narrative
There it is, never give a fuck about the damages

How do you sleep
In that bed you built from debris?
Of bridges you're burnin'
Hope it was worth
Losing what you thought you deserved
You la-la-la-lie like it's pathological
Pathological
Pathological

You're obsessed with affection
And suppressing confessions
Your pathetic, synthetic connections
Can't cut out the lying infection
Like venom you're spreading, you fuck

Fake a tragedy, an injury, till you turn a profit
Weaponizing all my empathy to reach in my pockets
Evil tendencies got me believing he's out of options
I'm on my apathy, it's time to put your ass in the coffin

How do you sleep (How do you sleep?)
In that bed you built from debris? (Built from debris)
Of bridges you're burnin'
Hope it was worth (Hope it was worth)
Losing what you thought you deserved
You la-la-la-lie like it's pathological
Pathological
