

# Why Not Me

## Set It Off

I'm watching my friends all succeed  
Honestly, they deserve it  
But I'm selfishly over here asking:  
"Why not me?"  
We're all driving to the same place  
I'm just stuck in the slow lane  
I impatiently wait while they pass me  
Why not me?

When I'm down and biting the dust  
A little voice is shouting "get up"  
'Cause when it hurts, I'm brushing it off  
Dig down deep and say

Why not me?  
With the odds up against me  
I'm not gonna let me down  
Can't stop me  
Might be down for the count  
But don't you ever count me out  
I take shots of pain, watch that flicker turn to flame  
Dig down deep, say "why not me?"

Fixated I sharpen my teeth  
Underdogs getting hungry  
I've been biding my time, I've been waiting  
Hide and seek, what I'm missing  
The thoughts of me giving up fade away  
'Cause I live it, I breathe it, I can't be defeated  
That's when I say

When I'm down and biting the dust  
A little voice is shouting get up  
'Cause when it hurts  
I'm brushing it off  
Dig down deep and say  
"Why not me?"

Why not me?  
With the odds up against me  
I'm not gonna let me down  
Can't stop me  
Might be down for the count but  
Don't you ever count me out  
I take shots of pain, watch that flicker turn to flame  
Dig down deep  
Say "why not me?"

Hide and seek, what I'm missing  
The thoughts of me giving up fade away  
'Cause I live it, I breathe it, I can't be defeated  
That's when I say  
(When I say, when I say)

Why not me?  
With the odds up against me  
I'm not gonna let me down

Can't stop me  
Might be down for the count but  
Don't you ever count me out  
I take shots of pain, watch that flicker turn to flame  
Dig down deep  
Say "why not me? "
