

Win Win

[Set It Off](#)

Hey, Hannah, I-I mean Scene Queen
There's a song that I need you on
Like now
Let's party

You're so bold
Screaming your opinions out your window
Just so I can't I hear em
You won't get close
And say it with your chest
You hate to see me get
You hate to see me get...

Get above your low brow toxic trash
I'll turn around so you can kiss my ass
I'm out in front, you're just my backing track
So send your empty threats
I love when you're upset, I'll...

Kick two feet inside your mouth
You're spittin' em out, win win
Crack my fist I'm breaking out
That coffin you put me in
Swish some bleach inside your mouth
Two times around, win win
Crawlin' out from underground
Cause bitch we're back again, boo

You're going for blood
That's so adorable
You're cutting me up
You're so hysterical
So say what you want
It's your memorial
Be mad, stay mad, win-win like that

W-I-N, W-I-N
Win Win!
W-I-N, W-I-N
Win Win!

A bunch of whiney little bitches, could be gone you choose to witness
Let me occupy your mind because you never mind your business
Is my success makin' you pressed, You're just too stressed
Try to suck less, but I won't hold my breath
Look stupid, I'm ruthless
I'm massive, big unit
You talk shit, go toothless
Can't hear you, you're muted, hush

You're going for blood
That's so adorable
You're cutting me up
You're so hysterical
So say what you want
It's your memorial
Be mad, stay mad, win-win like that

Boo
W-I-N, W-I-N

You're going for blood
That's so adorable
You're cutting me up
You're so hysterical
So say what you want
It's your memorial
Be mad, stay mad, win-win like that

You're going for blood
That's so adorable
You're cutting me up
You're so hysterical
So say what you want
It's your memorial
Be mad, stay mad, win-win like that

W-I-N, W-I-N

Win Win!

W-I-N, W-I-N

Win Win!

W-I-N, W-I-N

Win Win!

Be mad, stay mad, win-win like that
